1. Executive Summary

Cycle 7 (Wk 27–28 FY26) compliance came in at 84.2%, against the 88.0% threshold defined in Section 4.1 of TPA-FY26-Q3-04417. The shortfall is concentrated in the Great Lakes – West zone and in Express-format stores, where the authorized 5-SKU set was incomplete in the majority of locations. Coffee and creamer segments performed at or above target; confectionery display execution was the primary drag. Out-of-stock incidence of 5.8% exceeds the 4.0% ceiling, driven predominantly by Toll House Semi-Sweet Morsels 12oz and Butterfinger Fun Size 10.9oz.
