

STORE INCIDENT REPORT

Severity: MODERATE -- medical attention sought, no fracture

Location: Store #4421 -- Maple Grove, MN
Date/Time: July 20, 2026, 2:35 PM
Incident Type: Customer Slip & Fall
Reported By: Jessica Pham, Front End Supervisor
Persons Involved: Customer: Margaret Olsen (age ~65). Witness: Employee Carlos Mendez (badge #4421-087).

Incident Description

Customer slipped on wet floor near produce wet rack. Floor mat had shifted, exposing wet tile. Customer fell onto right side, complained of hip pain. Customer was alert and oriented. Declined ambulance but requested help to her vehicle.

Immediate Actions Taken

1) Area cordoned off immediately. 2) Wet floor signs placed. 3) Floor mat repositioned and secured. 4) Photos taken of area. 5) Customer provided incident form and store manager business card. 6) Customer's daughter called store at 4:15 PM -- customer went to Urgent Care, X-ray negative, diagnosed with bruised hip.

Root Cause

Floor mat not properly secured with anti-slip backing. Produce wet rack misting cycle creates overspray that reaches aisle when mat is displaced. Mat replacement overdue -- current mat purchased 2023.

Corrective Actions

1) All produce area mats replaced with anti-slip backed mats (completed 7/21, cost \$340). 2) Wet rack misting nozzles adjusted to reduce overspray. 3) Produce team briefed on hourly floor checks.
